

Seasonal Change Science Knowledge Organiser – Year R/1: Term 1 and 2

Key Science Vocabulary	
weather	The weather is what the sky and the air outside are like. The weather can change at any time in the day.
seasons	The four seasons of the year have different weather patterns.
days	1 day is 24 hours long.
months	1 month is 28, 30 or 31 days long.
years	1 year is 12 months long, or 365 days long.
temperature	The temperature is how much heat is in the air. Lower temperatures are colder and higher temperatures are hotter.
degrees celsius	What we record temperature by, for example, in the summer it can get to 30 degrees celsius outside.

Previous Learning	
In EYFS	We looked at the differences in the weather throughout the year.
